SUMMARY

Biomedical Engineering student with strong academic foundation and expertise in content writing and event management. Demonstrates exceptional problem-solving abilities, critical thinking skills, and effective communication. Recognized for fostering team collaboration and adapting to evolving needs. Utilizes analytical skills and innovative solutions to drive success.

SKILLS

Biomedical & AI
- Machine Learning
- EEG Signal Processing
- Bioinformatics
- Research

Programming & Analysis
- Python
- MATLAB
- TensorFlow
- Flask
- Excel

Professional
- Team Leadership
- Technical Writing
- Public Speaking
- Event Coordination

PROJECTS

EarSense: Feasibility Analysis of a Reduced 4-Channel EEG System (Ongoing Minor Project)

Python, EEG Signal Processing, Machine Learning

- Investigated reduced-channel EEG for wearable neurotechnology using the ERP CORE P300 dataset.
- Achieved 84.7% P300 classification accuracy with a 4-channel configuration and 0.981 ERP waveform correlation relative to conventional EEG.
- Laying the foundation for a wearable ear-EEG device with real-time signal acquisition and cognitive monitoring capabilities.

Pan-Cancer Classification from RNA-Seq Gene Expression using Self-Attention Neural Networks

Python, TensorFlow, SHAP, Flask

- Developed a self-attention neural network for multiclass cancer classification from RNA-Seq gene expression data.
- Implemented SHAP-based explainability for biomarker discovery and model interpretation.
- Built an interactive Flask web application for prediction and visualization.

WORK EXPERIENCE

Biomedical Engineering Intern - Sri Sathya Sai Institute of Higher Medical Sciences (SSSIHMS), Bengaluru

June 2026 – July 2026

- Gained hands-on experience in the calibration, troubleshooting, and preventive maintenance of biomedical equipment.
- Assisted in the inspection and functional verification of medical devices across Radiology, Cardiology, Neurology, Laboratory Services, and Operation Theatres.
- Worked with equipment including CT, MRI, X-ray, ECG, EEG, ENMG and automated laboratory analyzers.

R&D Associate Head, Placfv's (SRM Placement Student Team) - SRM Institute of Science and Technology **Oct 2025 - Present**

- Conducted industry and recruitment trend research.
- Performed recruiter and HR outreach research and compiled company insights.
- Led recruitment processes, coordinating volunteers and teams across domains.
- Managed task delegation, cross-domain communication and recruitment execution.

Content Member, Team SRM Hackathon - SRM Institute of Science and Technology **Jan 2025 - Aug 2026**

- Emceed SRM Hackathon 2025 and managed event communication.
- Created promotional content and assisted sponsor outreach.
- Coordinated internal communications for event execution.

Content Writing Intern, Kshitiksha Foundation **Apr 2024 - May 2024**

- Created fundraising and awareness content.
- Prepared internship documentation and reports.

EDUCATION

Bachelor of Technology in Biomedical Engineering with MI **Expected in May 2028**

SRM Institute of Science And Technology

- CGPA : 9.0

12th Standard, PCB+IP **May 2023**

Vydehi School of Excellence

- Final Score: 86.8%
- Selected as Event Manager of the Student Council.
- Organized interschool and intraschool Model United Nations conferences.

10th Standard, Science **May 2021**

Vydehi School of Excellence

- Final Score: 93%.

ACCOMPLISHMENTS

- Second Runner-Up, PCB Design & Fabrication Workshop for Biomedical Applications (TekMedica, SRMIST).
- Presented a research poster at the International Conference on Biotechnology (ICB 2026)
- Published in an anthology in July 2021.
